

FISHING BOAT

Total Pieces	8
Squares	8
Triangles	0
Difficulty Level	Easy

Special Note: Aerobloks™ structures are ideal for imaginary play. Do not deploy the boat for actual water use.

SIMPLY FOLLOW THESE STEPS

BOWS AND ROOF

1. Connect two square blocks together through the second slit openings to form a triangular shape.
2. Repeat to build two other units. Two of these will be used for the bows of the boat and one will be used for the roof.

THE BOAT FRAME

1. Connect the two bows together using a square block.
2. Connect only the inside edges of the boat using the second slit openings. You will make four connections in total.

COMPLETING THE BOAT FRAME

1. Repeat the above steps to complete the opposite side of the boat frame.

PUTTING IT TOGETHER

1. Mount the roof to the side panels of the boat, but only on the inside edges.
2. Make sure to use the second slit openings for a tighter connection.
3. There, you are done! Grab your gears and let's go fishing!!
