

Small House

Total Pieces	8
Squares	8
Triangles	0
Difficulty Level	Easy

Simply Follow These Steps

TWO WALL PANELS

1. Make a single wall panel first by connecting two squares using all 4 connectors on both sides. Make sure to use the first slit openings.
2. Repeat to build a second wall panel.

HOUSE FRAME

1. Connect the two wall panels using one square to form a rectangular frame.
2. Connect using the second slit openings but only on the inside of the frame.

ASSEMBLING THE ROOF

1. Connect two square blocks together through the second slit openings to form a triangular roof top.

PUTTING THE ROOF IN POSITION

1. Mount the roof to the side panels of the house frame, but only on the two inside edges.
2. Make sure to use the second slit openings for a tighter connection.

THE FINISHING TOUCH

1. Attach a square block atop of the house frame to cap the entry way.
2. Connect only the bottom or inside edges (4 connections as shown), again making sure to use the second slit openings for a tighter connection.
3. Congratulations, you've just built a house. Don't forget to plan a house-warming party right away.
